Importance of Communication Skills:

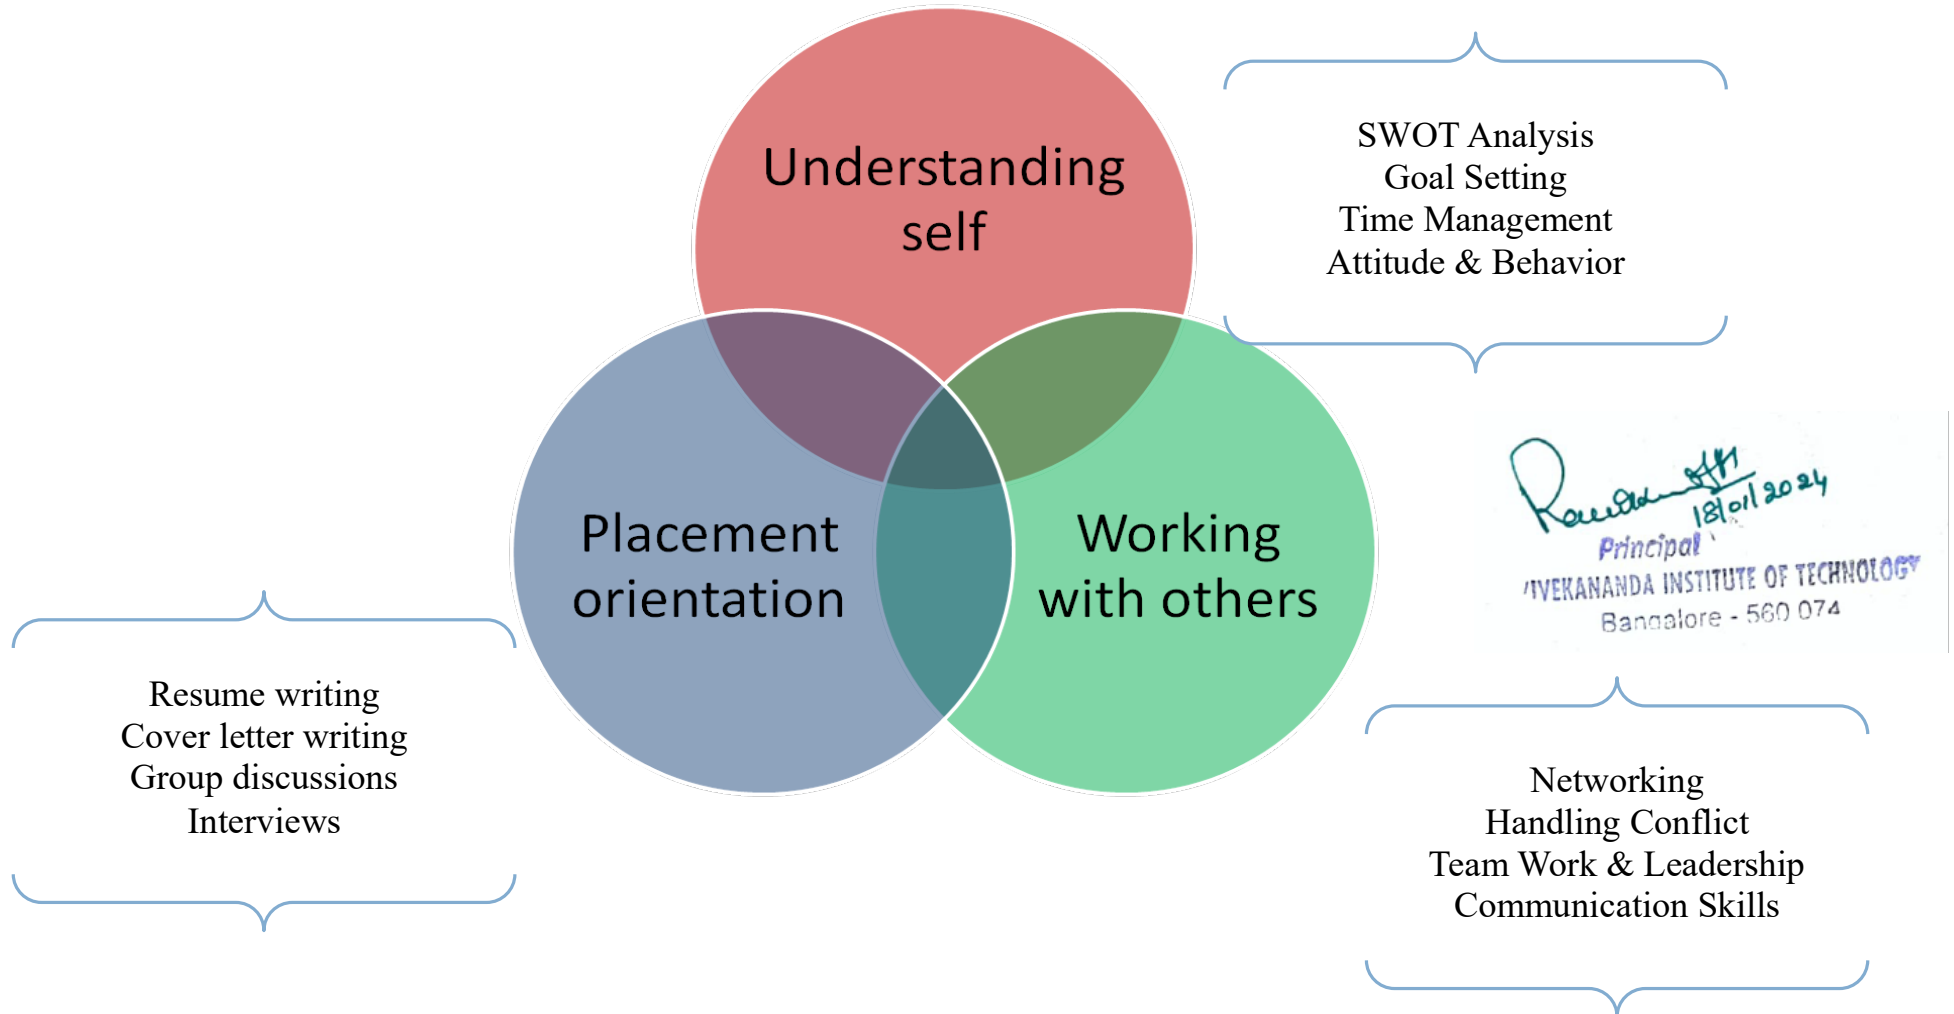

Many graduates do not have proper foundation in English in their early years. Many are exposed to English for the first time during graduation, where there is no formal English language training. Expressing thoughts and ideas in English becomes a major problem, leading to other issues such as loss of confidence, nervousness and an inferiority complex. English being recognized as the global medium of communication, is fast becoming a requirement in both obtaining a job and growing professionally.

Importance of Soft Skills:

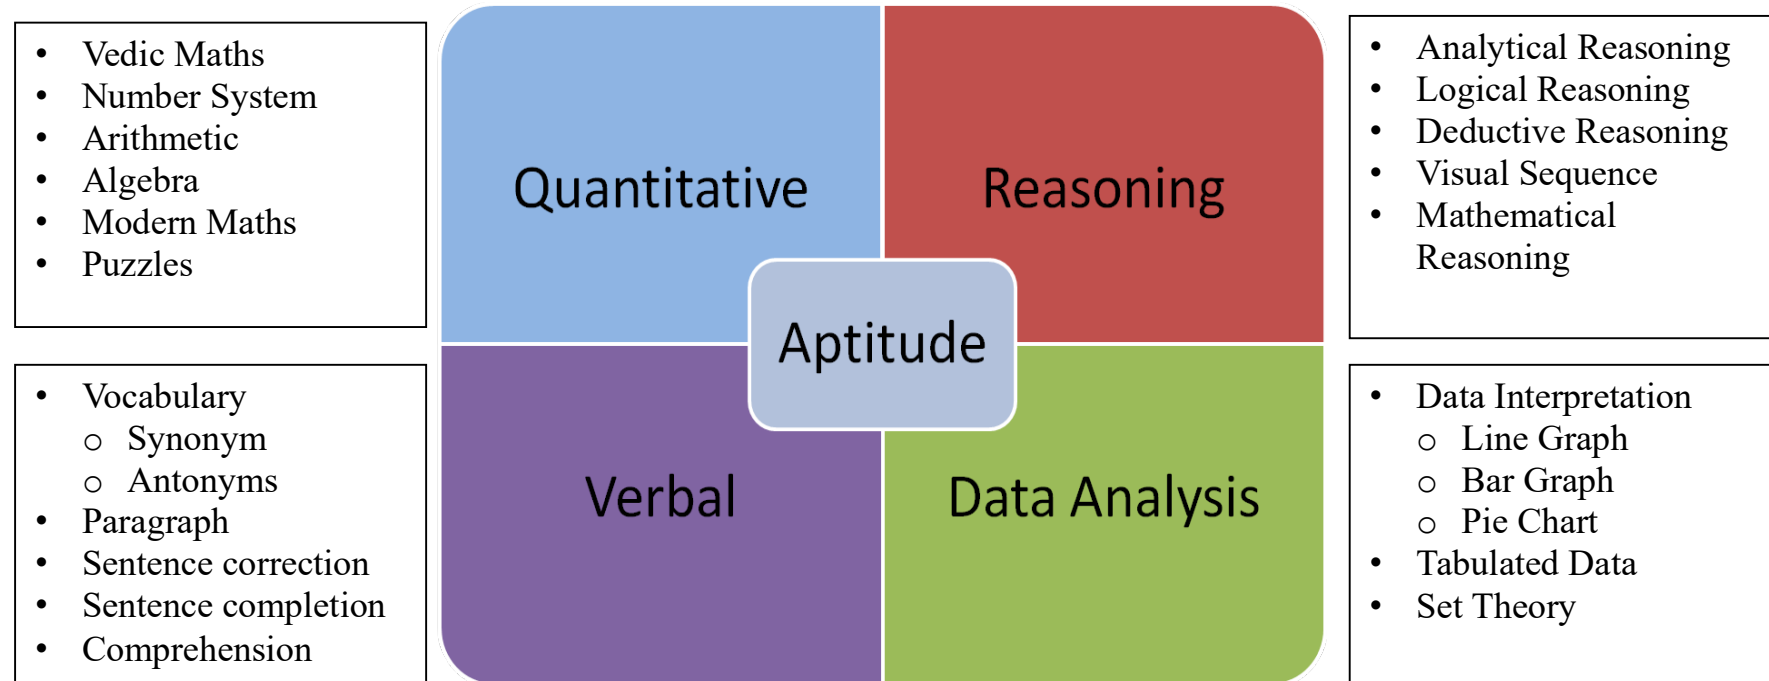

- Personal attributes that enhance an individual's interactions, job performance and career prospects
- Hard skills account for only 15% and soft skills 85% of a person's productivity at work
- Unlike hard skills, soft skills are interpersonal and broadly applicable
- Prepares graduate for transition from campus life to professional life

Importance of Aptitude:

Aptitude test is without doubt your first hurdle during placement process. Setting the pace of the race among the Government, IT and the Non-IT Sector, giving them a new standard each time defining the quality of the youth able to take the whole world to a new different level. Aptitude round is a compulsory round in recruitment process in many organization, as it is one of the best ways to evaluate the candidates' ability to crack complex problems in short span of time.

C2TC is one of the best platform which they have funded for us (free of cost) which will help the needed ones very well

SUSHMA H, ECE

A completely new domain is introduced and I am completely inclined and eager to learn more. I can see this is helping me gain many profits in terms of knowledge and for placements.

RAHUL XAVIER, ISE

The training is very good

I recommend this training to everyone who want their career in IT industry. Training helped us to do great projects.

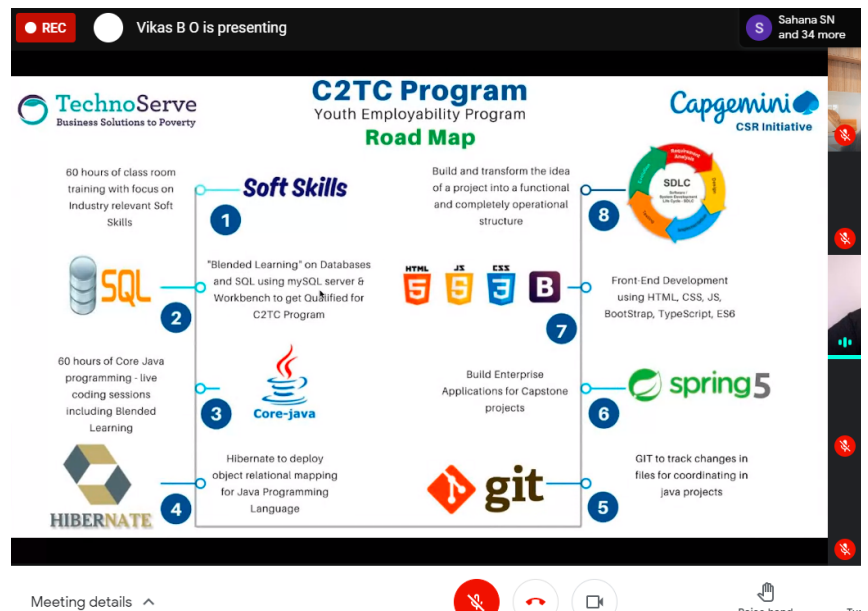

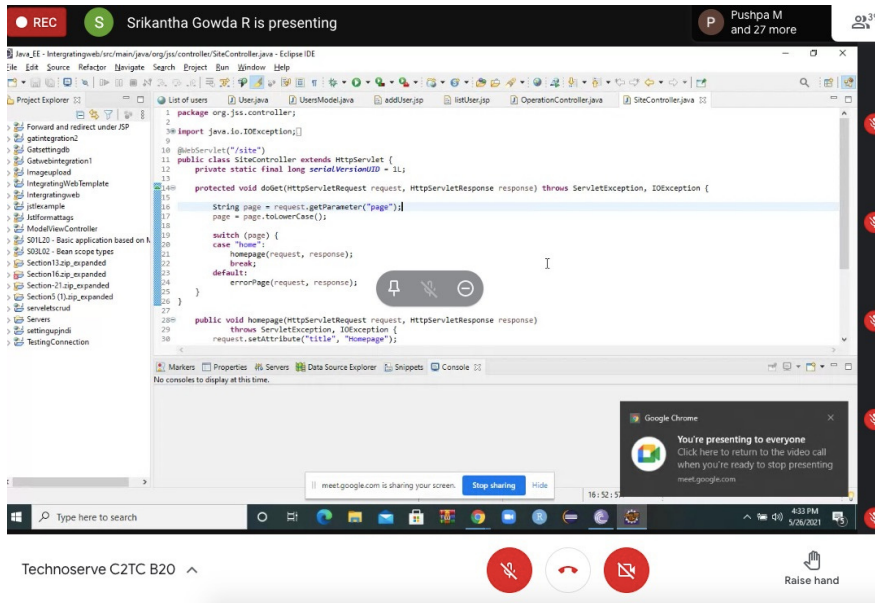

BHARATH J, ISE

It is helping me to understand core java in depth and increases my knowledge day by day.

SYEDA ILLAHI, EEE

To learn Java and new topic the tech program should be conducted in a slower pace as for EEE students java is a new topic and it takes time to grasp! and more assignments and quizzes must be given !
It will help students like me ...
