Report on Spreading Public Awareness about Covid-19

Date: 13/06/2022

Program: Spreading Public Awareness about Covid-19

Venue: K Gollahalli

Person In-Charge: Mr. Mohan Babu V

Objective: The person taking this course will be able to explain to others about the corona virus, take precautions, make others aware, identify symptoms and follow guidelines prescribed by the World Health Guidelines and Indian Council of Medical Research.

No. of students participated: 138

Description:

1. COVID-19, which was initiated regionally at Wuhan of China, has become a global pandemic by infecting people of almost all the world.
2. The risks of getting COVID-19 are higher in crowded and inadequately ventilated spaces where Infected people spend long periods of time together in close proximity. Outbreaks have been reported in places where people have gathered, often in crowded indoor settings and where they Talk loudly, shout, breathe heavily or sing such as restaurants, choir practices, fitness classes, Nightclubs, offices and places of worship.
3. As the rural people do not have much knowledge about Covid, so we have given the basic Information about the virus and not to get feared about it instead fight against the Covid.
4. We have provided them the mask, hand sanitizers and basic kits to fight Covid so that they can use Them properly and stay safe. We have given all the instructions that are provided by WHO for not Spreading the virus.
5. By this AICTE Activity we feel happy to help the public by saving their lives and avoiding the spread of Covid.

REPORT ON COVID VACCINATION AWARENESS

Date: 13/07/22

Program: COVID VACCINATION AWARENESS

Venue: K Gollahalli

Person In-Charge: Mr. Mohan Babu V

Objective: The WHO lists all COVID-19 vaccinations as qualifying for use in emergencies or as offering protection against serious illness and death from COVID-19 infection.

No. of students participated: 152

Description:

1. The Covid-19 vaccines are the most potent weapon in our armoury in the fight against the pandemic and this can be won successfully by combined efforts of Governments and citizens. Lack of clinical trials for the vaccine, fear of vaccine side effects, and rumours of the presence of active viruses in vaccines are some leading obstacles that obstruct the success of the covid-19 vaccine campaign. The major challenge with vaccination has been the "Vaccine Hesitancy" and this can be solved only by way of spreading awareness about the vaccines.
2. We decided to conduct this drive in a seemingly rural area called K Gollahalli which is a few kilometres away from the college. Around 80-100 students had shown up and were divided into teams. Then, each team visited every house in the village to provide accurate scientific information about the vaccine and explain the villagers that why it is important in the fight against the pandemic and also we informed them that the vaccination drive is conducted in our own college and invited the people around to get vaccinated.
3. Cleanliness is also important is for preventing covid pandemic and we surveyed the place and picked the spots that had the most garbage and waste that were dumped. By following safety precautions and covid appropriate behaviour, we started to tidy the place and dispose all the waste items scattered around into large plastic bags which were later disposed off.

Report on to Skill Rural Population

Date: 14/09/2022

Program: To Skill Rural Population

Venue: Government Primary School Gollahalli

Person In-Charge: Mr. Mohan Babu

No. of students participated: 173

Objective: To equip the local mass with the basic awareness of skills that are in demand in the market.

Description:

1. The AICTE Activity Points project aimed to apply engineering skills to address social issues in India, focusing on "To skill rural population" to educate parents in nearby rural areas and empower them to teach valuable skills to their children.
2. After obtaining permission from a local school principal near Gollahalli, our team engaged with 40-60 students, conducting various educational activities to create awareness about ongoing issues, ensuring strict adherence to safety precautions and covid-appropriate behaviour.
3. Following the successful teaching sessions, we organized activities to help students discover their passions. The initiative resulted in a sense of pride and accomplishment, emphasizing the importance of responsibly contributing to society through knowledge-sharing. Additionally, we prioritized cleanliness by tidying the area and responsibly disposing of waste, reinforcing the holistic impact of the project.

REPORT ON CLEANING PROGRAM

Title	Report on Cleaning Program at Govt. School, K. Golahalli
Date	17 th December 2022
Faculty coordinator	Mr. Lokesh K T
Objective	1. Better learning atmosphere 2. Clean schools promote positivity
No. of students participated	115
About the Event	NSS volunteers demonstrated commendable commitment in their cleaning initiative at the government school campus. Early morning, equipped with gloves and cleaning materials, they systematically collected litter from various sections, emphasizing a thorough approach. Volunteers sorted and segregated waste, promoting environmental responsibility by categorizing recyclable and non-recyclable items. The cleaning effort extended to sweeping, mopping, and dusting, ensuring a spick-and-span environment.

REPORT ON FACILITATING 100% DIGITIZED MONEY

Date: 04/01/23

Program: FACILITATING 100% DIGITIZED MONEY

Venue: Collage Surrounding

Person In-Charge: Dr. Mohan Babu

Objective: The main objectives of digital transactions are to reduce the costs and risks of handling cash, increase the ease of conducting online transactions, and increase transparency among monetary transactions among people.

No. of students participated: 147

Description:

1. Digital Infrastructure Development: Establish a secure digital payment infrastructure, including online systems, mobile apps, and wallets, emphasizing user-friendly interfaces and robust security measures.
2. User Adoption Strategies: Encourage widespread adoption through educational campaigns, incentives, and a seamless user experience to shift users from traditional to digital payment methods.
3. Regulatory Support and Standardization: Implement standardized digital payment protocols for interoperability and promote regulatory support with clear policies to foster fair competition, protect consumer rights, and facilitate the growth of digital transactions.

REPORT ON CLEANING PROGRAM AT AMRUTHA NARAYANASWAMY TEMPLE

Title	Report on cleaning program at amrutha narayanaswamy temple
Date	21 st Jan 2023
Faculty coordinator	Mr. Mohan Babu V
Objective	The major goal of this event was to effectively clean and beautify the Temple grounds and the surrounding surroundings so that all worshippers could visit the Mandir.
No. of students participated	156
About the Event	The NSS embarked on a transformative journey with a temple cleaning program at Amrita Narayana Swami Temple, situated near our college. Meticulous cleaning, vibrant rangoli art, water pouring for cleanliness, and patient Darshana waiting were integral components. The dedicated efforts restored the temple's sanctity and beauty, fostering a sense of community service and cultural preservation. This report captures the achievements and valuable insights derived from the collective spirit of the NSS volunteers in upholding the temple's spiritual essence.

REPORT ON TECHNICAL EDUCATION AT ANGANAVADI

Date: 14/02/23

Program: Technical Education at Anganavadi

Venue: Kenchanapalya

Person In-Charge: Dr. Mohan Babu V

No. of students participated: 178

Objective: The objective of a technical education program for school students is to impart practical skills and knowledge in specific technical fields, preparing them for future careers or further education.

Description:

NSS students from Vivekananda Institute of Technology organized an impactful event at Anganavadi Kenchanapalya to raise awareness of technical education. Through engaging sessions and hands-on workshops, the initiative aimed to bridge the gap in technical knowledge within the community.

The event's focus on active participation sought to leave a lasting impression on local residents, fostering a culture of continuous learning. Beyond technical knowledge, the initiative aimed at contributing to individual development and overall community growth. In addition to addressing educational gaps, the NSS initiative at Anganavadi Kenchanapalya underscores the potential of educational efforts in creating positive societal impacts, promoting a sense of community development.

NSS REPORT ON "SHIVRATRI FESTIVAL PREPARATIONS AT OMKAR HILLS TEMPLE"

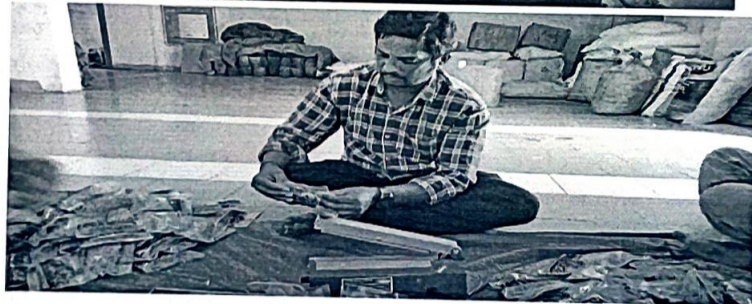

Title	Report on Shivaratri Festival Preparations at Omkar Hills Temple
Date	17 th February 2023
Faculty coordinator	Dr. Mohan Babu. V and Lakshmi Kanth
No. of students participated	156
Objective	To inculcate the service mentality into the youths of today's generation and also to give them a basic insight of organizing a public event.
About the event	The NSS volunteers at the recent religious festival showcased unwavering dedication and a deep sense of service. Their engagement ranged from the meticulous task of packing prasadas, fostering a spiritual connection, to ensuring the well-being of temple-goers by distributing water bottles in the scorching sun. Acting as the event's backbone, the volunteers tirelessly contributed to various tasks, including the setup of Shivratri stalls and the crucial cleaning of seminar rooms, emphasizing the profound importance of seemingly mundane responsibilities in facilitating spiritual gatherings. Their commitment and multifaceted efforts played a pivotal role in the success and seamless execution of the event.

Title	Report on "Street Play to Eradicate the Environmental Pollution"
Date	21 st Feb 2023
Faculty coordinator	Mr. Mohan Babu V
No. of students participated	11
About the event	The NSS volunteers of VKIT undertook a commendable initiative by planting saplings at various locations around the college campus. Their dedicated efforts contributed to the enhancement of the college's greenery and environmental sustainability. With a focus on fostering a sense of environmental responsibility, the volunteers demonstrated a collective commitment to nurturing a greener and healthier ecosystem within the college premises. This initiative aligns with the broader goals of community service and environmental consciousness upheld by the NSS at VKIT.
Objective	To make them understand the social causes that are in demand in simple and layman's terms.

REPORT ON SWACHH BHARATH ABHIYAN

Date: 02/05/2023

Program: Swachh Bharath Abhiyan

Venue: College Surroundings

Person In-Charge: Dr. Mohan Babu

No. of students participated: 100

Objective: Improve cleaning and sanity in a public place.

Description:

1. Swachh Bharat Mission (SBM), Swachh Bharat Abhiyan, or Clean India Mission is a country-wide campaign initiated by the Government of India in 2014 to eliminate open defecation and improve solid waste management.
2. This was a drive organized by the students of VKIT to contribute to keeping our surroundings clean. We had to target our surroundings and do our bit to clean up a few garbage disposed areas.
3. We decided to conduct this drive near our college. We split into groups and cleaned every part of our college. We also cleaned the surrounding areas of our college that had the most garbage and waste that was dumped. Around 80-100 students showed up and did the activity in groups.

REPORT ON RALLY FOR AVOIDING THE SPREAD OF CORONA VIRUS

Date: 09/06/2021

Place: From Nalak Kamba to Devagere

Program: Rally for avoiding the spread of corona virus.

No. of students participated: 182

Objective: Providing the public with general awareness about prevention of COVID-19 and it's spreading.

Description:

The NSS students of Vivekananda institute of technology had conducted rally from Nalak Kamba to Devagere to create awareness about what exactly is corona virus and its ill effect on people. The event kicked off with enthusiastic NSS students carrying banners and placards adorned with informative messages about COVID-19. The rally route strategically traversed through local neighbourhood's, markets, and public spaces, ensuring maximum visibility and outreach. The participants engaged with onlookers, sharing valuable insights on the virus, its transmission, and the importance of adhering to safety protocols.

REPORT ON COVID SECOND DOSE

Date: 18/06/2021

Program: COVID 2nd dose

Venue: VKIT Campus

Person In-Charge: Mohan Babu V

Objective: To educate the people the importance of taking the vaccine.

No. of students participated: 36

Description:

The NSS unit of the Vivekananda Institute of Technology conducted a second immunization drive in response to the first one's success. The fundamental purpose was to guarantee that every member of the college community had received all recommended vaccinations, which would contribute to the larger goal of public health. To this end, tight coordination was maintained with local health authorities and vaccine distribution centres in order to assure an adequate supply of second doses. Students were educated about the significance of finishing the vaccine series and the planned date for the second dosage drive using a focused communication strategy. The volunteers concentrated on reducing recipient wait times, guaranteeing prompt verification, and streamlining the registration procedure. NSS implemented tactics for crowd management, such as time slots and increased vaccination zones, in anticipation of a bigger turnout.

Date: 12/07/2021

Venue: Creating awareness among children about health and hygiene in Ashram

Person In-Charge: Mohan Babu V

No. of students participated: 25

Objective: To make an effort to prevent the spread of deadly diseases caused due to unhealthy and unhygienic habits.

Description:

The AICTE Activity Points project aims to raise children's awareness of health and cleanliness in Ashram. The initiative "Creating Awareness among Children about the Health and Hygiene" highlights potential avenues for using creative thinking to promote cleanliness. Partners: The Sneha Jyothi Charitable Trust. We made the decision to carry out this activity in an Ashram that is close to Kumbalagodu, home to roughly fifty kids. To get there, we departed early in the morning. Everyone was eager to engage with the ashram's young residents. About twenty to twenty-five students made this trip.

IMPORTANCE OF HIGH SCHOOL IN STUDENT LIFE

Date: 02/09/2021

Program: "IMPORTANCE OF HIGH SCHOOL IN STUDENT LIFE"

Venue: Government High School, Kumbalagodu.

Objective: High school helps students become ready for adulthood.

Effective communication, teamwork, leadership, time management, organization, critical and creative thinking, etc. are some of the life skills that can help them later in life when they have to deal with challenging situations.

No. of students participated: 85

Description:

Education is valuable and without a high school education students will have limited career options in future. High school is not an easy step but getting through it successfully will lay the right foundation for the long run. High School is an important milestone in a student's life.

It prepares students to grow and function within a civilized society.

- It provides students all round education.
- It prepares them for the real world.
- Ability to apply knowledge to real-life situations.
- Develops independent thinking skills.
- Ability to express thoughts and opinions.
- Formation and follow-through on long-term and short-term goals Learning to Balance duties and responsibilities.

REPORT ON SWACHH BHARATH ABHIYAN

Date: 04/10/2021

Program: Swachh Bharath Abhiyan

Venue: Devagere cross

Person In-Charge: Mohan Babu V

No. of students participated: 129

Objective: To promote the tidiness and sanity of the surroundings.

Description:

1. Swachh Bharat Mission (SBM), Swachh Bharat Abhiyan, or Clean India Mission is a country-wide campaign initiated by the Government of India in 2014 to eliminate open defecation and improve solid waste management.
2. This was a drive organized by the students of VKIT to contribute to keeping our surroundings clean. We had to target our surroundings and do our bit to clean up a few garbage disposed areas.
3. We decided to conduct this drive near our college. We split into groups and cleaned every part of our college. We also cleaned the surrounding areas of our college that had the most garbage and waste that was dumped. Around 80-100 students showed up and did the activity in groups.

REPORT ON CAP AND MAP PROGRAMME

Date: 05/01/2022

Program: CAP AND MAP

Venue: Mahesh PU collage

Person In-Charge: Mohan Babu V

No. of students participated: 19

Objective: Equipping the students with basic discipline to sustain in the modern world with right mindset.

Description:

Important factors: mental wellness and plastic awareness. The event was mostly intended for first-year engineering students. aspired to raise consciousness and encourage a healthier campus atmosphere.

1. The Plastic Awareness Session featured powerful remarks on the negative environmental effects of plastic by a number of second-year engineering students. The college community was made more aware of the need of sustainable practices through the use of visual aids and demonstrations.

2. Mental Health Awareness Session: The lecture moved into a mental health awareness section where films that demonstrated the difficulties that some people confront were shown. Students in their second year discussed the value of meditation and coping strategies. To emphasize the advantages of mental health, a practical meditation session was held.

REPORT ON PLANTATION OF SAPLINGS

Date: 10/01/2022

Program: PLANTATION OF SAPLINGS

Venue: VKIT SURROUNDINGS

No. of students participated: 116

Objective: To promote environmental conservation and sustainable practices by planting trees.

Description:

- Reducing Climate Change. if people are good at something, then it is building up excess carbon dioxide in the atmosphere.
- Harmful CO2 contributes to climate change; the biggest current problem the world has to deal with. Trees, however, help fight it.
- Purifying Air Have you ever felt that feeling of cleaner air in the woods or by the seaside. Well, you were right because it is well known that trees do purify the air.
- They absorb pollutant gases such as nitrogen oxides, ozone, ammonia, sulphur dioxide. Trees also absorb odours and act as a filter as little particulates get trapped in leaves.
- Cooling Down the Streets Every year we listen to the shocking global warming news. For instance, the average temperature in Los Angeles has risen by 6F in 50 years, and the average global temperature grew by 1.4 F.

REPORT ON FIRE SAFETY

Date: 18/05/2022

Program: Ensuring Vigilance: A Comprehensive Fire Safety Assessment at VKIT Campus

Venue: Seminar Hall Civil Block, VKIT

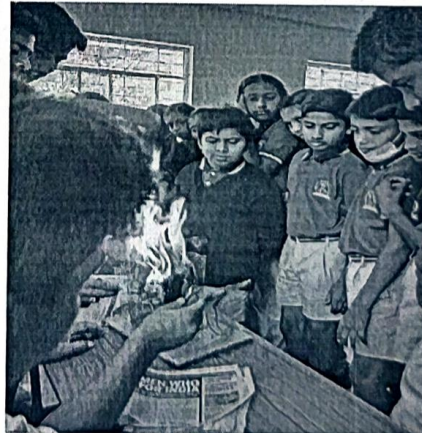

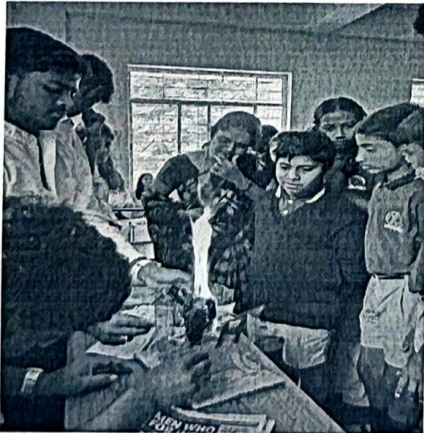

No. of students participated: 210

Objective: Letting them to know the right way to react in case of a fire accident.

Description:

The fire safety report conducted at VKIT Campus signifies a pivotal initiative aimed at fortifying the safety measures within the institution. As a centre of learning, VKIT recognizes the paramount importance of safeguarding its students, staff, and infrastructure from the potential risks associated with fire incidents.

As an outcome of the program, VKIT is committed to instituting sustainable fire safety initiatives. This includes regular training sessions, periodic drills, and the integration of cutting-edge technologies for continuous improvement. The program sets the foundation for an ongoing culture of safety, ensuring that the VKIT campus remains well-prepared to address evolving fire safety challenges.

REPORT ON COVID – FIRST DOSE

Date: 12/03/2021

Program: COVID – 1st dose

Venue: VKIT Campus

Person In-Charge: Mohan Babu V

No. of students participated: 136

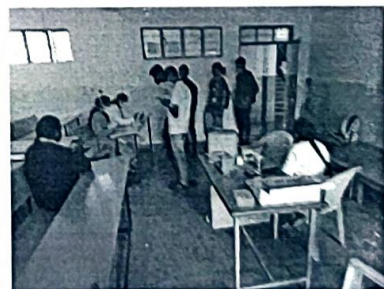

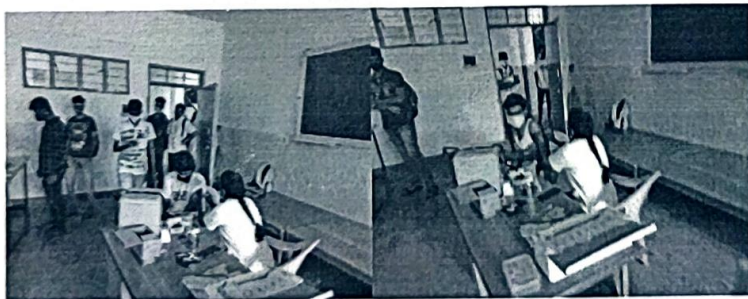

Objective: To educate the people the importance of taking the vaccine.

Description:

The NSS unit of Vivekananda institute of technology organized a successful COVID-19 vaccination drive. The primary objective was to contribute to the community's health and well-being by facilitating the vaccination process among the college population.

NSS collaborated with local health authorities and vaccine distribution centres to ensure a smooth vaccination process. Extensive awareness campaigns were conducted through posters, social media, and announcements to inform students about the importance of vaccination and the drive.

A dedicated area was set up on the college premises with proper signage, seating arrangements, and medical facilities to administer vaccines safely. Volunteers assisted in the registration process, verifying eligibility criteria, and ensuring the necessary documentation was complete. Trained medical professionals were present to address any health concerns, monitor recipient's post-vaccination, and provide immediate assistance if needed. NSS volunteers actively participated in various roles, including registration, crowd management, and providing information to recipients. Organized informational sessions to address common concerns and misconceptions about the vaccine, promoting a better understanding among students.

ACTIVITY: Developing Sustainable Water Management system

Sustainable water management (SWM) requires allocating between competing water sector demands, and balancing the financial and social resources required to support necessary water systems. The objective of this review is to assess SWM in three sectors: urban, agricultural, and natural systems.

Sustainable water means a nation that can be water self-sufficient: ensuring there is enough water to meet multiple needs, from agriculture to municipal and industrial. It also means water supply will remain consistent, despite climate change impacts, such as a lack of rainfall and drought, or too much rain and being flood resilient. Sustainable water also means that the economics stack up in matching supply and demand and the water delivery process is as efficient as possible. Water sustainability, meanwhile, can also mean energy neutrality by coupling traditional water treatment technologies with renewable energies. The following report is designed to provide everything you need to know about sustainable water.

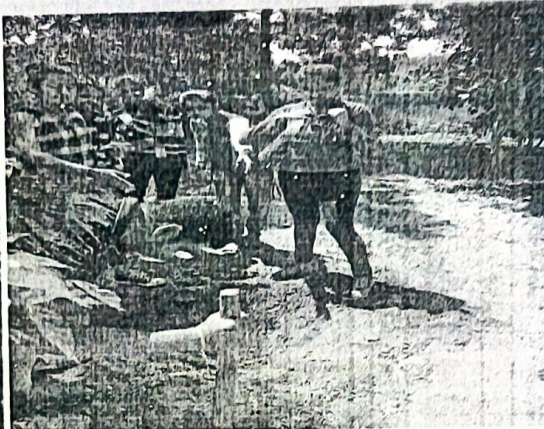

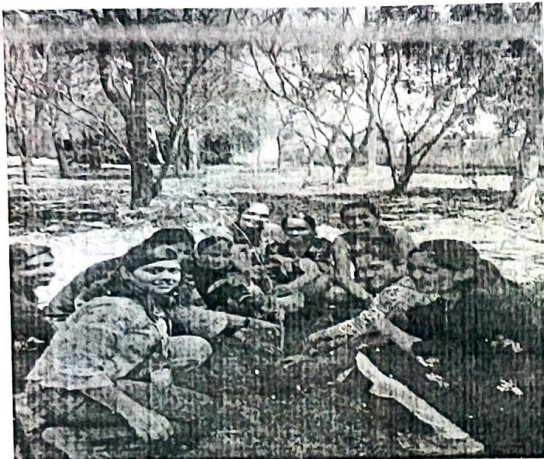

Nedra S. S. S.
25/05/2021

Ravi S. S.
Principal
05/01/2021
VIVEKANANDA INSTITUTE OF TECHNOLOGY

79

Sustainable water management means the ability to meet the water needs of the present without compromising the ability of future generations to do the same. Achieving sustainable water management requires a multidisciplinary and holistic approach in which technical, environmental, economic, landscape aesthetic, societal and cultural issues are addressed.

On a global scale, having sustainable water means to provide each person on the planet with affordable access to the minimum 20 to 50 liters of daily water required to sustain life. This follows the United Nations General Assembly recognition of “the right to safe and cleaning drinking water and sanitation as a human right that is essential for the full enjoyment of life and all human rights”.

Water sustainability also means effective and holistic management of water resources. There are now multiple demands on water resources, which drive the need for sustainable, integrated and holistic water management.

For water utilities, this can mean effective planning for water and wastewater systems to manage their operations and infrastructure and ensure the sustainability of the communities they

Ramachandran
Principal
05/01/2024
VIVEKANANDA INSTITUTE OF TECHNOLOGY
Bangalore - 560 074

e. according to the Environmental Protection Agency (EPA) in the US. The Agency said the benefits of considering sustainability during infrastructure planning include:

- Optimising environmental, economic, and social benefits by setting goals and selecting projects through a transparent and inclusive process with the community
 - Realising consistency across a range of alternatives that address both utility and community goals and
 - Enhancing the long-term technical, financial, and managerial capacity of the utility.
- Typically, water utilities have a long-term planning horizon and long-term infrastructure operation and maintenance commitments. The costs and potential benefits of investment decisions are realised over a long period of time.

Accordingly, EPA's Sustainability Policy calls on drinking water and wastewater systems to undertake "robust and comprehensive" planning to ensure that water infrastructure investments are cost-effective over their lifecycle, resource efficient, and consistent with other relevant community goals.

Levels of water sustainability will also differ between utilities. Some utilities and communities have been incorporating sustainability considerations into their planning processes but are looking for ways to improve and refine their current efforts. Others may choose to focus on how such considerations can help to cost-effectively meet existing regulatory or service requirements.

Students were able to understand the importance of water management and implemented the idea by planting trees in the premises of a local government school near VKIT.

Kindly find the document attached for Program content.

REPORT ON FREE HEALTH CHECKUP CAMP

Date: 18th July, 2019

Program: Health Checkup Camp

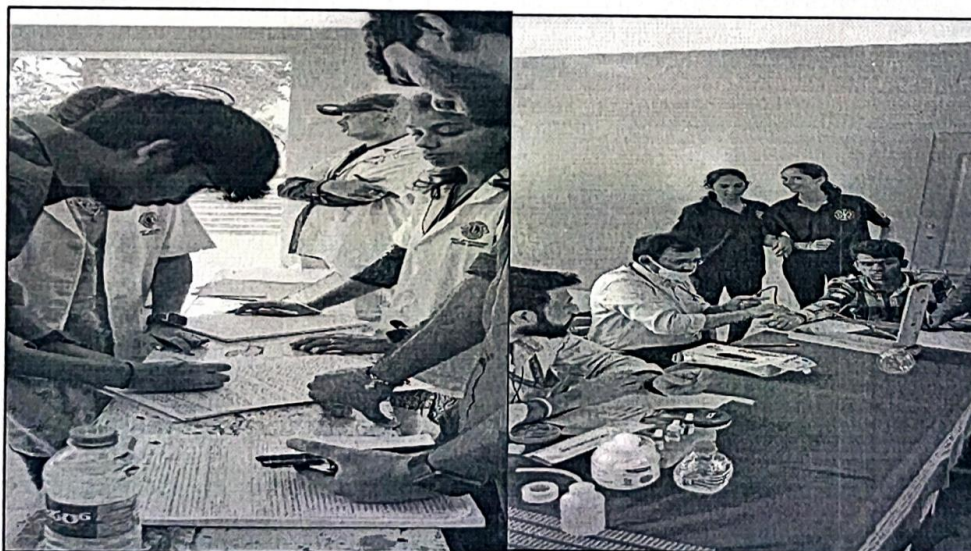

Venue: Sports Complex, VKIT

Objective: Free medical camps are organized with the noble purpose of raising awareness among the nation's underprivileged citizens, who lack access to basic medical treatment and are unaware of the illnesses they are afflicted with.

No. of students participated: 145

Description:

The Free Health Check-up Camp, which took place on July 18, 2019, sought to encourage community wellness and health by making healthcare services easily accessible to locals. Healthcare professionals and community members actively participated in the event, which was organized by the NSS team at VKIT. Overall, the event proved to be a great success, and we were happy to see individuals of all ages enthusiastically participating in the camp.

REPORT ON EDUCATION FOR BRIGHT FUTURE

Date: 30th August 2019

Program: Education for bright future

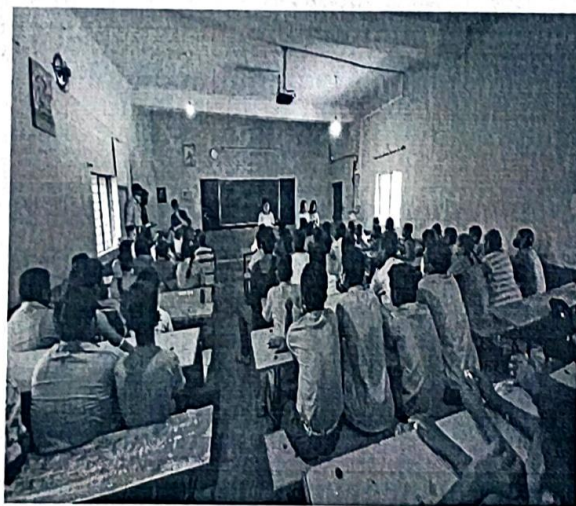

Venue: Government Primary School, Devagere

Objective: Educating elementary school students about the value of education and motivating them to pursue a strong education in preparation for a great future.

No. of students participated: 63

Description:

Raising awareness about education among primary students is crucial for fostering a strong foundation in learning. Creating awareness about education for primary students is essential for laying the groundwork for a lifelong pursuit of knowledge. This involves emphasizing the value of learning, fostering a positive attitude towards education, and encouraging curiosity. By instilling these principles early on, we empower young minds to appreciate the significance of education in shaping their future and contributing to personal and societal growth.

REPORT ON “BETI BACHAO, BETI PADHAO” PROGRAM

Date: 9th September, 2019

Program: “Beti Bachao, Beti Padhao” program

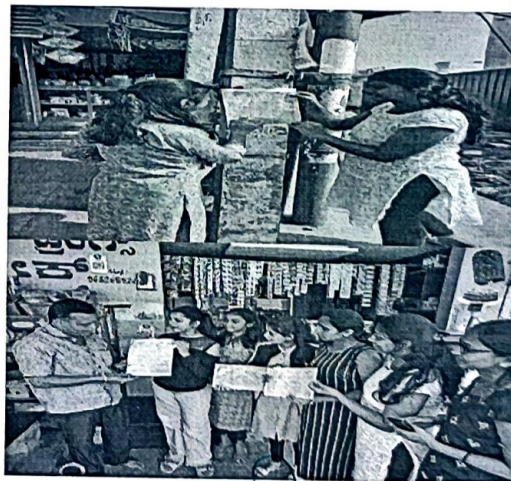

Venue: Gudimaavu, Kumbalagodu

Objective: Translation: 'Save the girl kid, educate the girl child' is what the name Beti Bachao, Beti Padhao means. The program's objectives are to increase the effectiveness of welfare services for girls and to inform the public about gender bias.

No. of students participated: 175

Description:

Volunteers from VKIT NSS arranged a powerful awareness campaign in Gudimaavu, Kumbalagodu, emphasizing the vital need of giving girl children a high-quality education. Residents in the area took an active part in the program, attending educational seminars facilitated by committed volunteers. Additionally, posters that were thoughtfully positioned across the neighbourhood reaffirmed important points regarding girls' equal access to school. Through education, the campaign aims to dispel myths and support girls' empowerment. Exuberant community involvement demonstrated the community's openness to the cause, and strategically placed posters greatly aided in the efficient distribution of information. Overall, the VKIT NSS volunteers were effective in communicating to the girl child in Gudimaavu, Kumbalagodu, the importance of empowerment and education.

REPORT ON SWACHH BHARATH ABHIYAN

Date: 27th October 2019

Program: Swachh Bharath Abhiyan

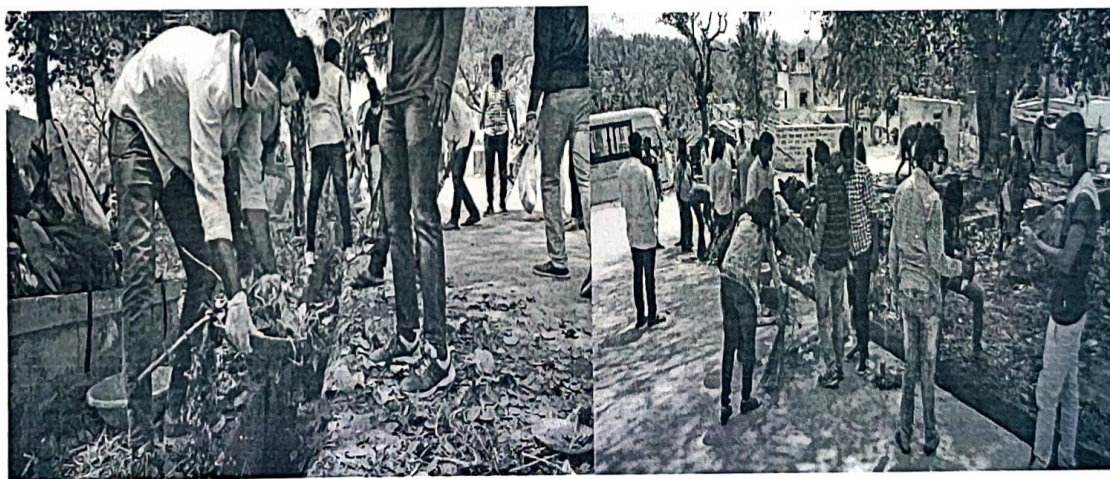

Venue: Devagere cross Bus-Stop

Objective: Cleaning the bus stop and creating awareness about keeping our surroundings clean.

No. of students participated: 125

Description:

NSS students undertook a community service project focus on cleaning the bus stop at devagere cross and managing the waste. Through coordinated efforts, these volunteers engage in litter clean-up, promote waste segregation, and educate the community about the importance of cleanliness. Leveraging teamwork, they collaborate with local authorities for waste disposal solutions. This initiative not only enhances the appearance of the bus stop but also instils a sense of environmental responsibility among both the NSS participants and the wider community.

REPORT ON ROAD SAFETY PROGRAM

Date: 8th November 2019

Program: Road Safety

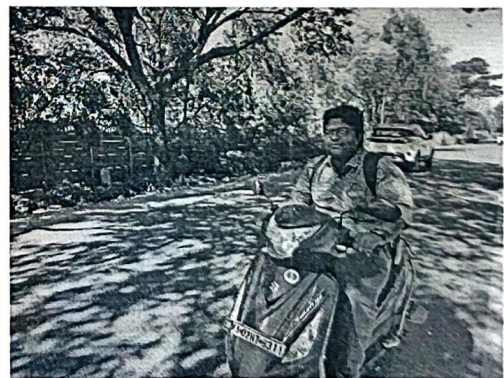

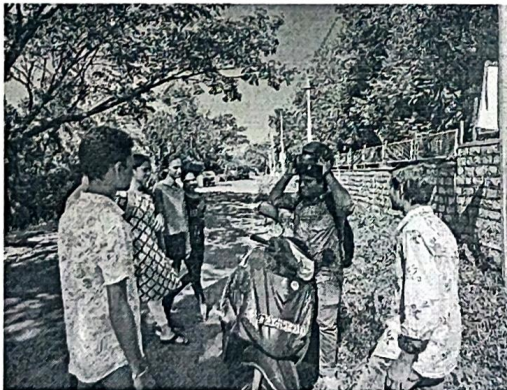

Venue: Government High School, Kumbalgodu

Objective: Creating awareness about road safety and educating them about traffic rules.

No. of students participated: 55

Description:

In order to avoid accidents, road safety must be promoted. Promote safe driving, seat belt use, and avoiding distractions by holding workshops, utilizing social media, and working with educational institutions. Educate communities through campaigns about the value of obeying traffic laws to create a safer driving environment. In the fast-paced world we live in today, road safety is crucial, especially for high school kids who are becoming more and more integrated into the traffic landscape. It is crucial to raise knowledge of road safety among this group in order to foster responsible driving habits and guarantee the safety of young drivers, passengers, and pedestrians. It is imperative that high school curricula incorporate programs for road safety instruction. Include courses on seat belt usage, traffic laws, and the risks associated with distracted driving.

REPORT ON ANTI-TOBACCO PROGRAMME

Date: 20th December 2019

Program: Anti-tobacco programme

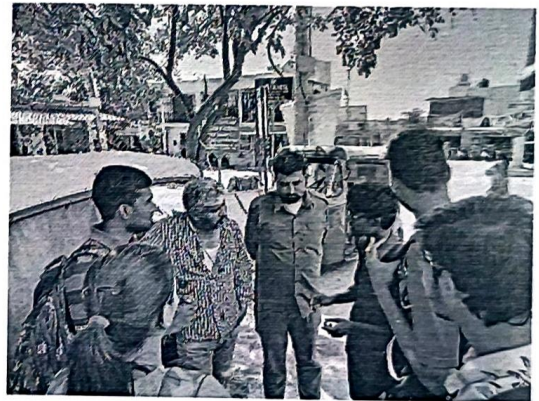

Venue: Gollahalli Village

Objective: 1. Raising awareness of the negative effects of smoking and alcohol consumption
2. Raise awareness of the negative consequences of tobacco use.

No. of students participated: 115

Description:

Creating a smoke-free society requires educating individuals about the negative impacts of tobacco usage. Anti-tobacco education can greatly reduce tobacco-related harm by highlighting health hazards, societal effects, using customized messages, offering cessation help, and pushing for effective policies. It is our common duty to equip people with the information and tools they need to make wise decisions and, in the end, create a healthy future for future generations.

REPORT ON SAY NO TO PLASTICS

Date: 31st January 2020

Program: Say No to Plastics

Venue: College Surroundings

Objective: The Campaign is completely focused on eliminating the single-use of plastic from society so the removal of plastic will remove the problem of cancer by the consumption of goods packed in plastic.

No. of students participated: 195

Description:

Promoting awareness to reduce plastic usage and encourage the use of paper bags involves highlighting environmental impact, organizing educational campaigns, and fostering sustainable habits. Emphasize the harmful effects of plastic on ecosystems, marine life, and human health. Collaborate with communities, businesses, and schools to host workshops, distribute informative materials, and promote eco-friendly alternatives. Encourage individuals to make small changes, like choosing paper bags, to collectively contribute to a greener, plastic-free future.

REPORT ON SAPLING PLANTATION

Date: 12th September, 2018

Program: Sapling Plantation Program

Venue: Government School

Objective: Planting the samplings in school and encouraging students to "GO GREEN"

No. of students participated: 190

Description:

In 2018, the Vivekananda Institute of Technology, National Service Scheme (NSS) students at Vivekananda Public School took a commendable initiative by launching a tree-planting campaign on the school campus, embodying the motto "Go Green." Demonstrating their commitment to environmental sustainability, the NSS students actively engaged in planting saplings, contributing to the school's greenery and fostering a culture of ecological responsibility. This noteworthy initiative not only beautified the campus but also served as an inspiring example of student-led environmental stewardship within the school community.

REPORT ON VOTING AWARENESS PROGRAM

Date: 20th September, 2018

Program: Voting Awareness Program

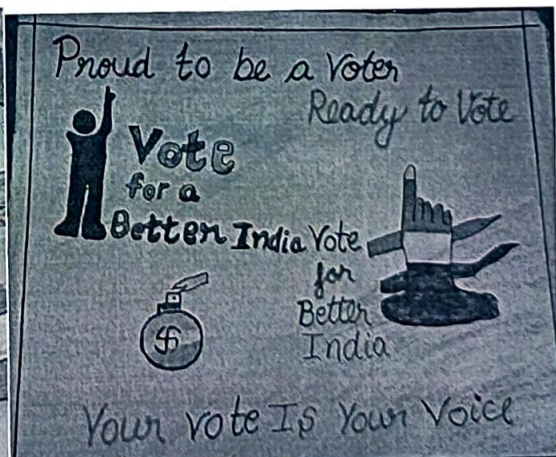

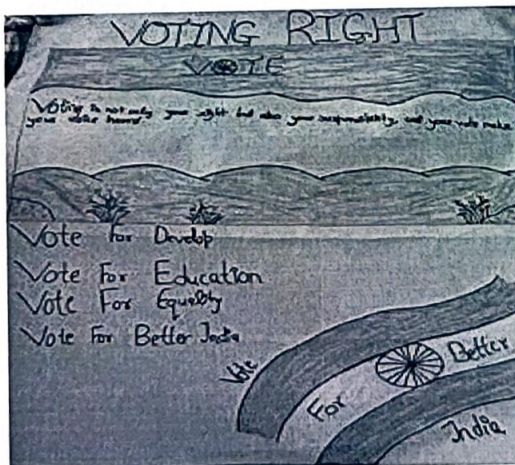

Venue: Nalku Kamba

Objective: 1. To creating awareness among the people/public/voter regarding the importance of the three tier local electoral system
2. To enhance people's participation in the voting system

No. of students participated: 141

Description:

The NSS volunteers of VKIT organized a successful Voting Awareness Program at Nalku Kamba, wherein they actively engaged with the local community, emphasizing the significance and necessity of participating in the democratic process. Through informative sessions and discussions, the volunteers effectively educated the residents on the importance of casting their votes, promoting civic responsibility, and encouraging active participation in shaping the future through the electoral system.

REPORT ON "CLEANING THE TEMPLE"

Date: 24th October, 2018

Program: Cleaning the Temple

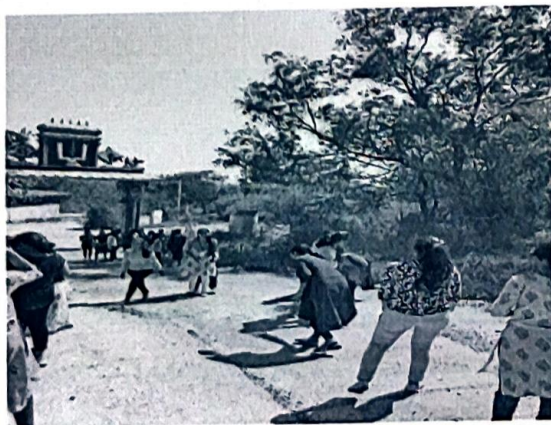

Venue: Amrutha Narayanaswamy Temple

Objective: It has to do with the replacement of the old way of worshipping God with a new way of relating to God.

No. of students participated: 170

Description:

On 24th October, 2019, Wednesday, the NSS students had undertaken a commendable initiative to enhance the cleanliness and overall environmental hygiene around Amrutha Narayanaswamy Temple. With a shared commitment to community service, the students organized a cleaning drive, diligently clearing debris and ensuring the temple and its surroundings are free from litter. This proactive effort not only contributes to the immediate visual appeal of the sacred site but also promotes a better and cleaner environment for all worshippers and visitors. The dedication of the NSS students reflects their sense of civic responsibility and their desire to foster a positive and pristine atmosphere around this significant cultural and religious landmark.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

"CSE HEALTH AND HYGIENE CAMPAIGN"

31st October 2018

A report on Swachh Bharat mission at Government Primary School, Gollahalli, Bengaluru. Swachh Bharat mission runs by ministry of human resource development (HRD) in India. In this series once again Vivekananda Institute of Technology celebrated Swachh Bharat mission in the Government Primary School premises on 31st October 2018 with **Reference no:- VKIT/CSE/Swachh/2018-19/135**

As planned Vice Principal, HOD, faculties and all the students were gathered nearby CSE department to start the event. Students were very much interested and they came with the posters and slogans. That was a very happy and proud movement to see creativity of the students.

Students were divided into teams with faculties for monitoring them. Transportation Facility was arranged by the management and journey started from VKIT campus to Government school, Gollahalli. When we reached there, we were welcomed by Head Masters of the school.

Various cleanliness and hygienic aspects were discussed in the assembly by Mr. Lakshmikantha G C, Assistant professor, Department of CSE, he also highlighted the vision of Hon'ble Prime Minister of India about Swachh Bharat Mission. He also explained about Mahatma Gandhi's dream of clean India. He also told cleanliness is required to live healthy, as Cleanliness is equal to Godliness. All the teaching and non-teaching staff of CSE carried out all the arrangements along with the Coordinators for the smooth conduct of the program.

The school campus was cleaned by the students, the cleaning of polythene bags, collecting dirty materials and fencing around the plant plantation site and the wastage was dispersed in to the dumping yard. The students also cleaned the playground which was partially covered with unnecessary plants.

We returned back to our college with a great satisfaction & Students were instructed to clean their hands at the end. As a refreshment, our department distributed lemon juice to fulfill the thirsty of everyone.

Our heartfelt thanks to JES Management, Principal, Vice Principal, HOD, Faculties, coordinators and all the students for their support in successful conduction of this event.

REPORT ON “WHAT NEXT?” PROGRAM

Date: 19th December, 2018

Program: What Next

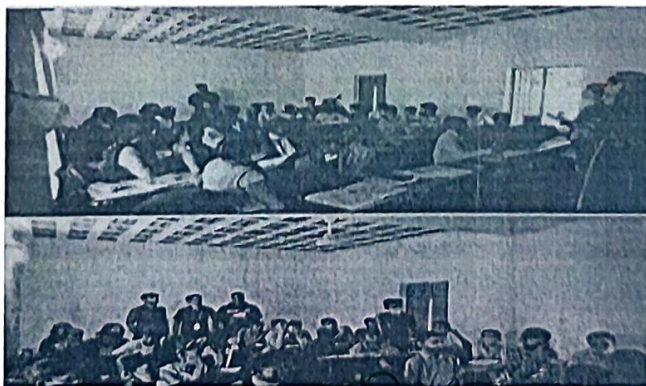

Venue: Government High School, Gollahalli

Objective: Creating the awareness regarding higher education to sslc students and also providing or educating them about the several options available after sslc.

No. of students participated: 142

Description:

The National Service Scheme (NSS) students at Government High School, Gollahalli, have taken a commendable initiative to raise awareness about higher education among SSLC students. Recognizing the importance of informed choices, the NSS team is actively engaged in educating SSLC students about various options available after completion of their secondary education. Through interactive sessions, workshops, and informative materials, the NSS students aim to empower their peers with valuable insights into different educational pathways, encouraging them to make well-informed decisions about their future academic endeavour's. This proactive effort not only contributes to the academic development of the SSLC students but also reflects the commitment of the NSS team towards fostering a culture of educational awareness within the school community.

REPORT ON WOMEN SELF-HYGIENE

Date: 28th January, 2019

Program: Women Self-Hygiene Program

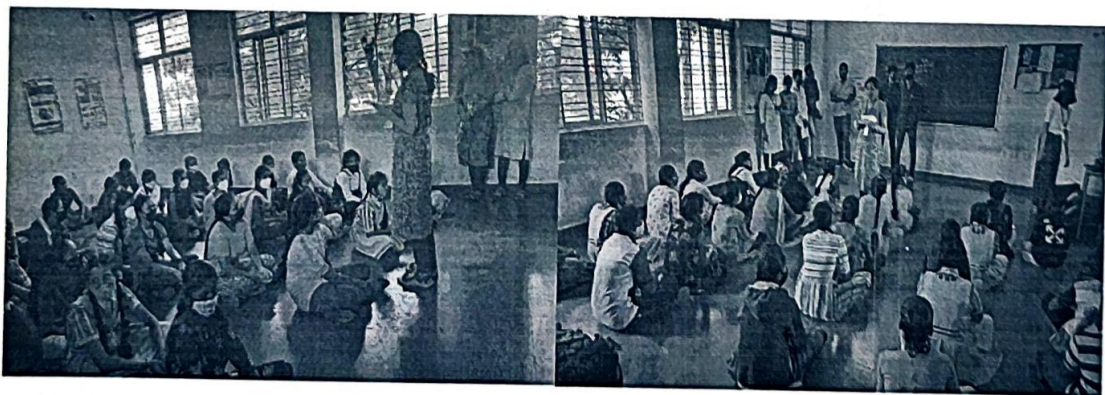

Venue: Tagachaguppe Village

Objective: Educating the rural woman and children about self-hygiene.

No. of students participated: 35

Description:

In a commendable initiative, the NSS students are actively engaging with the community in Tagachaguppe village to impart crucial knowledge on self-hygiene and cleanliness, extending their efforts to include child hygiene. Through well-organized informative sessions and workshops, the students aim to empower both women and children with essential practices for their overall well-being. This proactive approach not only reflects the commitment of NSS to community development but also underscores the importance of education in fostering positive change at the grassroots level. By addressing not only women's but also children's hygiene, the NSS team is contributing significantly to the welfare and health standards of the entire village.

REPORT ON VISITING THE OLDAGE HOME

Date: 20th February, 2019

Program: Caring old age people

Venue: Sandhya Sanjivini old age Home, Kumbalagodu.

Objective: visiting the old age home and taking care of the old age home residents for a day.

No. of students participated: 82

Description:

The NSS students undertook a commendable initiative by visiting the local old age home, where they dedicated a day to taking care of its residents. The visit aimed not only to provide companionship and support to the elderly but also to create a meaningful connection between the students and the senior citizens. Recognizing the importance of old age parents, the students engaged in various activities, including interactive sessions, games, and assisting with daily chores. This initiative not only demonstrated the students' commitment to community service but also highlighted the significance of valuing and cherishing the elderly, emphasizing the positive impact such initiatives can have on the well-being and dignity of the senior citizens in our community.
