Report on Training

Full Stack Application Development with MS Azure Cloud

The training on Full Stack Application Development with MS Azure Cloud was conducted by Edunet Foundation under the EY Next-Gen Employability Program from 16th October 2023 to 18th October 2023, then from 19th October 2023 to 30th October 2023 and 31st October 2023 to 3rd November 2023 with a total duration of 140 hours to final year students of AIML, CSE, ISE and ECE (2024 Batch). This program was aimed at equipping participants with the technical knowledge and practical skills required for developing and deploying full stack applications using Microsoft Azure Cloud Services.

Objective of the Training:

The primary objectives of the training were:

1. To provide in-depth knowledge of full stack development technologies including front-end, back-end, and database integration.
2. To familiarize participants with Microsoft Azure Cloud services and tools.
3. To enable participants to develop, deploy, and manage scalable applications on the cloud.
4. To enhance the practical understanding of DevOps practices using Azure.

Details of the Training Program:

1. Participants:

A total of 70 participants of 2024 Batch Students

2. Modules Covered:

○ Front-End Development:

- HTML5, CSS3, JavaScript, and modern frameworks like React.js and Angular.

○ Database Management:

- Introduction to SQL and NoSQL databases with practical exposure to MongoDB and Azure SQL Database.

○ Cloud Fundamentals:

- Overview of Microsoft Azure, its services, and cloud computing essentials.

○ **Application Deployment:**

- Deploying applications on Azure App Services and using Azure DevOps.

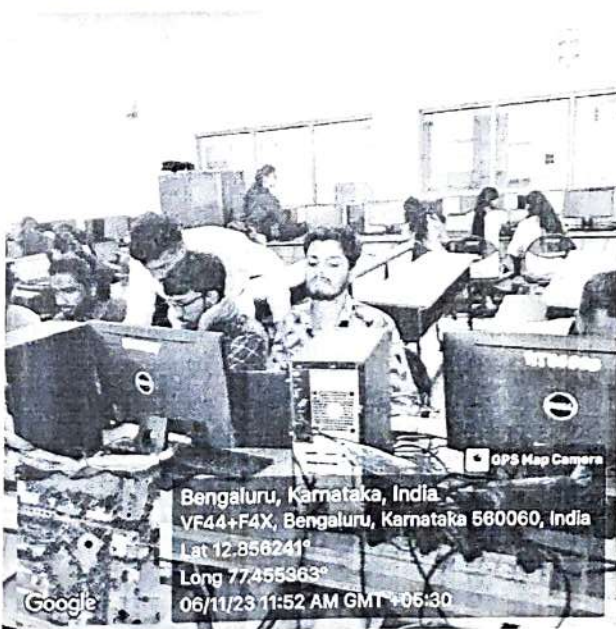

3. Key Activities:

- Hands-on labs and coding exercises.
- Case studies and real-world project development.
- Interactive Q&A sessions with industry experts.

Outcomes:

1. Participants developed a complete full stack application as part of their project.
2. Gained proficiency in using Azure Cloud for application hosting and management.
3. Enhanced their ability to collaborate on DevOps pipelines for continuous integration and deployment.

Photos:

Conclusion: The training on Full Stack Application Development with MS Azure Cloud was a great success, achieving its intended objectives and significantly enhancing the technical competencies of the participants. We recommend conducting similar workshops in the future to continue fostering skill development in emerging technologies.

Acknowledgment: We extend our sincere gratitude to the trainers, Microsoft Azure Cloud experts, and the organizing committee for their dedicated efforts in making this training program a success.

2. To familiarize participants with Microsoft Azure's data analytics services and capabilities.
3. To enable participants to design, develop, and deploy data-driven applications on the cloud.
4. To enhance the practical understanding of data visualization, machine learning and big data processing on Azure.

Details of the Training Program:

1. **Participants:** A total of 77 students attended the training program from CSE, AIML, ISE and ECE department.
2. **Modules Covered:**
 - **Data Analytics Fundamentals:**
 - Data processing pipelines and ETL processes.
 - **Azure Data Services:**
 - Introduction to Azure Data Factory, Azure Synapse Analytics, and Azure Databricks.
 - **Big Data Processing:**
 - Working with large datasets using Azure HDInsight and Databricks.
 - **Application Deployment:**
 - Deploying analytics applications and integrating with Azure services.

TRAINERS RATINGS:

Trainers Feedback

Feedback report

Average college feedback:	4.40
Highest average feedback by a trainer:	4.50
Least average feedback by a trainer:	4.30

Positive feedback

Good Interaction with Students.

Students set an example of excellence in behavior and cooperation.

The Trainer provided practical lessons to help improve.

PURPOSE OF THE TRAINING PROGRAM:

- Our Training program would assist the students-keeping their placements in mind, by crafting captivating interpersonal skills, along with strong responses to both behavioral and technical interview questions.
- Fine-tuning of the student's attitude to learning, motives, values, and dealing with different situations responsibly and diligently, also makes them a good predictor of academic success.
- This training program helps them leverage their most marketable and transferable-skills to new career paths and types of work.
- Our training would help students to set inspiring but realistic goals in their professional life.

Report on Mobile Repair and Troubleshooting Course Sri Sri Kushala Vikasa Kendra

Introduction

Training of Started from 29th April to 4th May 2024 and 6th May to 11th, May 2024, students of Vivekananda Institute of Technology from the 4th and 2nd semesters participated in a mobile repair and troubleshooting course at Sri Sri Kushala Vikasa Kendra. Skill lab, established by the Art of Living in collaboration with Bosch Company, aimed to impart practical knowledge on various aspects of mobile device repair and maintenance.

(Fig 1: Batch at Kushal Vikas Kendra)

Course Overview

The six-day course covered a wide range of topics essential for mobile repair technicians. Participants were trained in soldering techniques, desoldering methods, IC re-fixing procedures, air blow soldering, component testing, and identification of malfunctioning components. The course emphasized hands-on learning, enabling participants to gain valuable skills in diagnosing and fixing mobile device issues.

Learning Outcomes

1. Proficiency in Soldering and Desoldering:

- Participants gained expertise in soldering electronic components, a fundamental skill for device repair.
- They also learned desoldering techniques, crucial for replacing or repairing faulty components.

2. IC Re-fixing and Air Blow Soldering:

- The course included training on re-fixing Integrated Circuits (ICs), a complex yet essential aspect of mobile device repair.
- Participants were introduced to air blow soldering techniques, enhancing their ability to work on intricate circuitry.

3. Thorough Component Testing:

- Participants were taught how to conduct comprehensive component testing to accurately identify faults in mobile devices.
- This skill is vital for diagnosing issues and providing effective repair solutions.

4. Display and Tempered Glass Repair:

- A notable achievement was participants' ability to remove and fix displays and tempered glass on mobile devices.
- This hands-on experience not only improved their technical skills but also boosted their confidence in handling complex repair tasks.

5. Technical Skill Enhancement:

- Overall, the course significantly enhanced participants' technical skills in mobile repair and troubleshooting.
- They gained practical knowledge that is directly applicable to real-world scenarios in the technology sector.

6. Confidence Building:

- The hands-on experience with display and tempered glass repair instilled confidence among participants to tackle intricate repair challenges.
- This confidence is crucial for success in the fast-paced and evolving field of mobile device repair.

7. Employability and Career Prospects:

- Acquiring these key skills enhances participants' employability in the technology sector.
- Their newfound expertise in mobile repair and troubleshooting opens doors to diverse career opportunities.

8. Industry-Relevant Training:

- The collaboration between the ~~training agency~~ Bosch Company ensured participants received industry-relevant training aligned with current technological trends.

- This partnership underscores the importance of practical, hands-on learning in preparing professionals for the workforce.

9. Bridging Theory and Practice:

- The course exemplified the effectiveness of bridging theoretical knowledge with practical experience.
- Participants gained a deeper understanding of mobile device repair by applying theoretical concepts in real-world repair tasks.

10. Continuous Learning and Skill Development:

- The course laid a foundation for continuous learning and skill development in the dynamic field of mobile technology.
- Participants are now equipped to adapt to new technologies and advancements in the industry.

Impact and Benefits

The course had a significant impact on the participants' skill development and career prospects. By gaining practical knowledge in mobile repair, participants are now equipped to handle a wide range of issues encountered in mobile devices. This expertise is invaluable in the rapidly evolving technology sector, where mobile devices play a crucial role in everyday life.

Furthermore, the collaboration between the Art of Living and Bosch Company provided participants with industry-relevant training and exposure to best practices in mobile device repair. This partnership underscores the importance of combining theoretical knowledge with practical experience to nurture skilled professionals.

Conclusion

In conclusion, the mobile repair and troubleshooting course at Sri Sri Kushala Vikasa Kendra was a comprehensive and beneficial learning experience for the twelve members of Vivekananda Institute of Technology. The acquired skills in soldering, IC fixing, component testing, and display repair will undoubtedly enhance their employability and contribute to their success in the technology sector.

This course exemplifies the effectiveness of practical, hands-on training in developing competent professionals ready to meet the demands of the industry. The collaboration between educational institutions, skill labs, and industry partners is essential for bridging the gap between academic learning and real-world application.
