Five days Value added Certification Course on (02.12.2024 to 06.12.2024)

"Advanced applications of Generative AI in AWS cloud, IOT and Cyber Security"

Day 1 : Generative AI in Cyber security
DAY 2 : Research methodology and Intellectual property Rights
DAY 3: Generative AI in IOT
DAY 4 : Automation and Devops Flexibility and Integration.
DAY 5: Generative AI using Large Language Models and ChatGPT.

Five days Value added Certification Course on (07. 04. 2025 to 12.04.2025)
"Sensors and its applications using IoT"

07.04.2025 – Inauguration and introduction to Sensors and its applications "
08.04.2025 - Hands on training on DHT sensors interfacing and LCD interface using I2C
            Protocol
09.4.2025 - Hands on training on Level Sensor with DC pump etc
11.4.2025 –   Introduction to IoT, Introduction to node MCU, interfacing LED to node
MCU
12.04.2025 –   Introduction to various cloud platform, introduction to thing speak
